Parents of after school!

Hope everyone had a great Christmas holiday. As most of you probably know two new teachers have arrived over the holiday. The new After school leader is me, Kristin. I am 31 years old from Norway have a 2 year old son with my Tanzanian boyfriend, I have a teacher degree from Norway. The other is Tuija, she is from Finland and has been here for a year already and has settled in well with here husband and two children. She is educated as a social psychologist. Of course Marie is still here for the enjoyment of the school and kids!

My aim for my time at this school is to be a positive role model for the kids and activate them in a joyful way so everyone comes home with a smile!

And as Rasmus said you are more than welcome to grab me, (Kristin), whenever you want to if there's any questions, comments or anything concerning after school.

Pillow production

Lego sculpture making

Smoothies & Smooth music event
in Nordic House Club

NHC- experimenting
with corn flour- goo

What we have been doing in After school

This month is the month of creativity and arts. We have dusted of the sewing machines and many pillows and purses have been made and a dress is on the way. The other challenge was to make a sketch and build it in Lego.

Outdoor activities such as poisonous ground, and track race are activities for the children that need a little more action.

We had an amazing pool party last week with juice and fruits while the older children had an event at Nordic house club.

The group

The kids have adapted well to me and Tuija and they have welcomed our new activities and ideas with an open mind. We have managed to create a better eating routine with a calmer atmosphere. We ask different questions such as what day/date it is, and Marie has introduced a daily quiz. F. ex: What's the largest country in the world?

Nordic House Club

At Nordic house club this month Marie has had activities like Pictionary which the kids said was fun and challenging! The teams where "team swag" and "team awesome". It was a close tie, but team awesome won in the final round.

The other big event was the smoothie evening event which Marie planed. The kids prepared all the fruits and made their own smoothies, and they tasted delicious, all we could hear was "Nam nam"! While enjoying our smoothies we watched Tarzan and when the evening was ending all the kids had their turn to clean up.
