

After school

Newsletter April 2015

With April passed we're moving towards a colder and rainier May, but After school is shining brighter than ever!

Back from the Easter break came children and teachers re-energized, happy and ready to roll. We're focusing on the Art & Creativity theme with suggestions from the children, again this year we will make our "gips" masks, decorate them to then bring home, each child that wants gets to make their own painting, if it's tinga-tinga, self portrait or maybe both, the imagination is the limit! Making a dance or performing to a song are also suggestions highly welcomed.

A suggestion mentioned by one child, supported by all the other children, is pie-throwing on teachers faces. That suggestion is still on the table to be looked at..

Youth Club

As most of you know the original YC has not been up for a while, due to too few YC-children attending. But now we have been able to turn it around to something very positive. With Marie, our YC-leader, we now have an event of different kinds up in the Nordic House, where YC-children are prioritized and different AS kids each week are their "guests". For the past months we've been able to make pizza, watch a movie, bake, making noodles, creating our own smoothies and other fun activities in addition the regular after school activities. These events takes place every Thursday!

Reminders: We still host Tennis between 3-4pm every Thursday, with a different teacher every week. (When the weather allow us to!) Nr to AS & YC: [0777 000 0581](tel:07770000581)

10th June: Circus-event 3-5pm!

Thank you!

Camilla, Halvor, Marie, Rasmus & support staff.
